LeetCode | Portfolio | HackerRank | GitHub Profile

## Summary

Passionate **Front-End Developer** with hands-on experience in building responsive, scalable web applications using React, JavaScript, and Tailwind CSS. Skilled in integrating real-time features and collaborating in team environments. Strong foundation in **AI/ML**, adding depth to full-stack development.

## Education

Chhatrapati Shahu Ji Maharaj University(Formerly Kanpur University)Kalyanpur, Kanpur-208024  
CSE (Specialization in Artificial Intelligence) B.Tech(**3rd Year**) November 2022 - May 2026

## Skills

Programming Languages:	C++, Python, JavaScript, c language
Front-End:	React, Redux, Tailwind CSS, Bootstrap
AI/ML & Computer Vision:	OpenCV, face-api.js, DeepFace, FaceNet
Libraries/Frameworks:	Flask-SocketIO
Tools & Platforms:	Git & GitHub, VS Code, Vite, npm, Babel, Jest, Mocha, React-Webcam, Socket.IO
Databases:	MySQL, MongoDB

## Projects / Internship

Multiple Disease Prediction(Kidney,Diabetes & Heart) | [Link](#)

**Tech Stack:** Python, Pandas, Numpy, Scikit-learn, Streamlit, Matplotlib

- Designed and developed a responsive web app using **Streamlit** for early disease risk prediction.
- Built an intuitive **user interface** that simplifies input of medical parameters and displays prediction results clearly.
- Integrated **ML models** on the backend to deliver real-time feedback to users.
- Improved **user experience** by ensuring fast load times and clean UI layout across devices.

Visionary-Advanced-Image-Recognition-for-the-Next-Era(Internship) | [Link](#)

3 Month  
Remote

**Tech Stack:** React, face-api.js, Flask, Flask-SocketIO, OpenCV, DeepFace, FaceNet

- Created a real-time **face recognition web interface** using React and Flask-SocketIO for image capture and result rendering.
- Integrated **live camera input** using react-webcam and face-api.js for seamless user interaction.
- Focused on front-end performance and optimized load/render cycles for real-time feedback.
- Collaborated on the back-end ML model pipeline, ensuring smooth integration with the UI.

BootStrap E-commerce Website(Internship) | [Link](#)

3 Month  
Remote

**Tech Stack:** HTML, CSS, Bootstrap 4, JavaScript, FontAwesome

- Developed a **fully responsive** E-commerce website with shopping cart, checkout & product search functionality.
- Used Bootstrap grid system and custom media queries to ensure consistent UX across all screen sizes.
- Integrated secure payment options for seamless checkout experience & order confirmation system.

## Certifications

Web Development - Internship Studio

Training Certificate for Web Development - Internship Studio

Soft Skills - TCS

AI Tools Workshop - Growthyfai Technologies

Workshop on Project IDX - Bolt IoT

AI/ML Intership - Infosys
